WHY USE FCI FAUCETS

FCI cares for the environment. FCI Intelligent Faucets save 65% of the water that would otherwise be wasted.

FCI Intelligent Faucets significantly reduce water consumption through intermittent operation. No more water will be wasted at the time a hand moves from lever to a bar of soap or a toothbrush,

FCI cares for the people. FCI Intelligent Faucets are easy to install, maintain, and use.

FCI Intelligent Faucets eliminate the spread of germs as there are no handles and allow for an ambient environment that is cleaner.

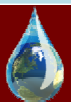

FCI Intelligent Faucets automatically shut off; therefore eliminate the worry of overflowing sinks.

FCI Intelligent Faucets save you money by controlling the water flow and temperature.

FCI Intelligent Faucets reduce your costly maintenance expenses, as there are no extra fixtures or handles, and offer a 3 year warranty.

WHERE TO USE FCI FAUCETS

Commercial , Public , Domestic and Industrial markets all around the world
